

What is the Space hamsters?

«Space hamsters» 🐹 is the name of an NFT collection that will be used within the Voola ecosystem. Currently, there is a pre-sale of equity participation in the business in the form of this collection.

The sale of the share takes place through the distribution of intellectual property (IP-shares) in the Copyright Depository based on Interoco Blockchain technology.

- The rights to IP-Shares are transferred within a day after defrosting the NFT
- You become the owner of a share of unique technologies
- ✨Your share of the business is registered in accordance with English law✨

Features of Interco technology

VOOLA DMCC company conducts pre-sale of IP-Shares intellectual assets through the NFT collection of crypto hamsters.

- INTEROCO Copyright Office - is a global full-automated electronic legal service for protection rights of authors from different countries.
- Created as a fast non-government legal protection system for authors from Europe in 2006-2016 years INTEROCO provides today wide opportunities for copyright protection for the applicants from Europe, CIS-countries, Asia, Middle East and other regions.
- The main focus of INTEROCO Copyright Office is a full implementation of the requirements of the Berne Convention for the Protection of Literary and Artistic Works.
- The copyright certificates of INTEROCO are recognized in 172 countries of the world (members of Berne Convention). You can deposit anything that is copyrightable: original brands, mobile applications, work of sciences, literary, dramatic, musical, artistic works and video/sound recordings, including novels, poems, lyrics, songs, paintings, drawings, design, computer images, software, advertisements, logos, training materials, and even the rules of a game.
- Certificates of INTEROCO Copyright Office are verified and accepted as a legal document by all leading Internet services providers for over last 10 years (Google, Youtube, AppStore, LinkedIn, Facebook, Twitter, Yahoo, Instagram, Google Play, Yandex, Vkontakte, etc.).

Additional information on working with IP-Share NET can be found on the website <https://lk.vooladmcc.com> in the FAQ section

What does this give the investor?

We've created a comic book about "Space Hamsters," with the story and artwork being created by a neural network. After every 1,000 NFTs sold, we will produce a new issue (there will be 12 in total).

On the space station
"Hamster-1", on the
outskirts of the galaxy

The hamsters begin to collect their tools and prepare to return to the space station.
